

REMARKS

Reconsideration and allowance in view of the foregoing amendments and the following remarks are respectfully requested.

Claims 2 has been canceled. Claims 1 and 5 have been amended. Claims 1 and 3-6 are pending in this application.

Examiner pointed out that the drawings are objected to under 37 CFR 1.83(a), and the drawings must show every feature of the invention specified in the claims and the single ply sweatband must be shown or the feature(s) canceled from the claim(s), and claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. According to the examiner's indication, we canceled claim 2.

Examiner pointed out that the disclosure is objected to because of the following informalities: subject headings are improperly underlined. According to the examiner's indication, we removed underlines in the subject headings of the specification.

Examiner pointed out that Claim 1 is objected to because of the following informalities: the format of

claims should be limited to one sentence and it appears the word "wrap-way" is misspelled, and should be warp-way.

According to the examiner's indication, we amended claim 1 to one sentence and replaced "wrap-way" with "warp-way" in the specification including claim 1.

Examiner pointed out that claims 1-6 are rejected under 35 U.S.C. 103(a) as being obvious over Park(2004/0019954) in view of Young et al.(6,107,538).

Applicant would like to submit that the pending application 10/816,860 and Park(2004/0019954) were, at the time the invention of the application serial number 10/816,860 was made, owned by the company DADA Corp. Accordingly, Applicant respectfully requests disqualification of Park under 35 U.S.C. 103(c) as prior art in a rejection under 35 U.S.C. 103(a).

All objections and rejections having been addressed,
it is respectfully submitted that claims 1 and 3-6 are now
in condition for allowance and a notice to that effect is
earnestly solicited.

Respectfully submitted,

By : 

Boo Yl Park/CEO of DADA Corp.
